

CASE STUDY

Client: Elavation

Product: X-Series

WE CHOSE THE BOSS PRODUCT FOR ITS EXCELLENT BUILD QUALITY AND FOR THE MACHINES MANY SAFETY AND SERVICE FEATURES ”

Mani Gonzalez

Director
Elavation

THE CHALLENGE

Elavation, Milton Keynes wished to add BoSS X-Series machines to their hire fleet at a time of high demand for office refurbishment projects on a tight schedule.

THE BRIEF

Elavation expressed their need for a number of BoSS X3 and X3X push around scissor lifts units within a short time span.

Youngman had to fulfil Elavation's tight schedule showing product availability, reliability and quick turn around, ensuring the safe delivery of the BoSS products.

THE SOLUTION

Youngman successfully fulfilled all requirements of Elavation and have seen a hugely positive response.

Elavation Director, Mani Gonzalez, said: "All of the units delivered so far have been fully utilised within a number of office refurbishment projects.

We are also seriously considering adding a number of the Boss X3X SP self-propelled micro scissor platform later in the year."
